INTRODUCTION

HIGHTOP Biotech is a R&D based manufacturer, engaged in development, manufacturing and trading of in vitro Diagnostic Reagents (IVD) and Medical Equipment. We are committed to using our Technology and Innovation to Improve the Quality of Life.

HIGHTOP Biotech is the head office of HIGHTOP Group, which including other two companies, located in the beautiful coastal city of Qingdao, China. Our main factory, Weifang Kanghua Biotech Co., Ltd, founded in 1996, which approved for manufacturing and trading IVD products from SFDA and operated under quality system of ISO 13485 and ISO 9001, most of products have been certified with CE mark.

We are currently providing an extensive range of Immunochromatography based one-step rapid tests for infectious diseases & STD for HBsAg, Anti-HBs, HCV, HIV 1/2, Syphilis, Malaria P.f/P.v, Dengue IgG/IgM, Dengue NS1, H.Pylori, Rotavirus, Adenovirus, TB, Tumor markers for AFP, CEA, PSA, FOB and Cardiac markers for Troponin I & Cardiac 3 in 1 (Troponin I, Myoglobin, CK-MB) and other unique rapid tests such as TOXO, Rubella, CMV, HSV-1 and HSV-2. Beyond that, we also produce highly sensitive urine pregnancy test and ovulation test for professional use and self-testing under brand name of HIGHTOP, as well as OEM basis.

Besides the Immunochromatography products, we are providing DOT Kits, ELISA Kits, Chemistry Reagents as well as instruments including Chemistry Analyzer, Urine Analyzer, Fluorescence Immunoassay Analyzer, Microplate Reader and Microplate Washer. There were two new products released this year, including Urinalysis Reagents Strip and POCT System.

HIGHTOP Biotech focus on customers' experience and devotes ourselves into supplying customer with more convenient, more plentiful, more competitive and higher quality products and services. Adhere to the scientific and technological innovation forever, improve the quality of human life, and promote the development of the national medical industry.
